PROJECTS

NSP Website

[GitHub Link](#)

This is like an open source contribution. I have been contributing the front-end part and specifically making image gallery. I have been learning how corporate employees give their contributions to the company. I am using REACT.JS, JAVASCRIPT, TAILWIND CSS

Restaurant Website

[Project Demo](#)

This is a responsive website and MongoDB will store the data. You can reserve your food tomorrow and order for now instantly. Learned how to use React.js, Node.js, MongoDB. I am using REACT.JS, JAVASCRIPT, TAILWIND CSS, EXPRESS.JS, MONGODB, NODE.JS

POSITION AND RESPONSIBILITIES
